

Declaration on Prop 65

Date: 9/18/23

The following declaration is intended to provide you as the user with information regarding the material requirements placed on our products: Nylon 6/6 – Natural, Nylatron GS

As our customers' fields of activities are very broad, the requirements may be accordingly diverse and are often based on the tests and approvals of the final product.

California Prop 65 – Safe Drinking Water and Toxic Enforcement Act of 1986 – Chemicals known to the State to cause Cancer or Reproductive Toxicity

In the course of California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986), the state of California publishes a list of chemical substances known to cause cancer, birth defects or other reproductive harm. The presence of these substances must be reported when a product is sold in California in accordance with the rules of California Prop 65.

We want to support our customers in the supply chain to comply with the requirements of California Prop 65. Therefore, we hereby give a statement about the substances regulated by this directive.

We have received statements from our suppliers that during the production of the product(s) mentioned below there are not reportable substances as per the California Prop 65 Regulation requirements.

Any information from our suppliers about the deliberate use of such substances would be specified in this statement. For more information please go to www.P65warnings.ca.gov.

Please note:

The above information and statements are based on our current knowledge. Thus, they do not assure or guarantee the chemical stability or the consistency of the products and their suitability for the trade in a legally binding way.

Regards,
