

Ryerson Customer:

We have received a request for information on products that we supply to your company that may contain any of the current chemicals considered as “substances of very high concern” (SVHC) and may also be present on the Restricted Substances List according to the European Union legislation known as REACH.

**Ryerson**

Chicago, Illinois 60606  
312 292 5000 Main  
www.ryerson.com

Based on our review of the materials used to manufacture products, none exceed the SVHC concentration threshold over 0.1% nor are present on the Restricted Substances List containing 250 substances. REACH regulations do not apply to the stock material we supply, and we are not consequently required to complete registration paperwork.

This letter is not applicable to Aluminum Alloy Containing Lead Grade 6262. These products are not supplied for use in the European Union.

Please contact Ryerson if you have any further questions.

Sincerely,

*Trent McFarland*
